

The 41st Annual Drainage Engineers Conference

The 2009 Drainage Engineers Course and Conference at the Best Western Royal Brock Hotel and Conference Centre (formerly the Ramada Inn), Guelph, ON

- Thursday, October 29, Municipal Drains and Provincial Highways Seminar
- Friday, October 30, Drainage Engineers Conference

Municipal Drains and Provincial Highways Seminar, Mr. Art Groenveld, Senior Drainage Engineer and Dr. Hani Farghaly, Senior Hydrotechnical Engineer from the Ministry of Transportation, Design and Contract Standards Office.

As a Drainage Engineer, have you had to plan, design and ultimately construct a municipal drain in a provincial highway right-of-way or under a provincial highway? Where in the provincial highway right-of-way can a municipal drain be located? What Ministry of Transportation drainage policies, design criteria and construction practices apply to the design and construction of a municipal drain in the highway right-of-way? How do you determine the outlet assessment amount to attribute to MTO lands? Who do you contact in MTO to get direction or information? If you have been in this situation and have been unsure of the answers to these and other questions, then this seminar is for you.
